

## Fortuna Service

Fortuna is known as being the world's best splitter and skiver. Rely on ENTAKT to keep it performing at their high standards.

ENTAKT's Fortuna Preventive Maintenance Program can help extend the life of your machine while bringing production levels back in line with the original capabilities. Program details can include:

- Productivity audit to identify every opportunity for improvement
- Regularly scheduled preventive maintenance visits (quarterly, biannual, annual)
- Preventive maintenance programs structured to meet your specific needs – designed to ensure proper maintenance and longevity of your machine
- Safety Checks

## Fortuna Training

- On-site structured Operator and Maintenance training by certified Fortuna instructors

## Fortuna Optimization

- A comprehensive action plan to optimize overall machine efficiency, identifying possible upgrades & modifications that can reduce downtime & enhance machine performance.

The ENTAKT Way - The ENTAKT experience goes beyond the knowledge base of our technical staff. Our team is focused on the customer experience. ENTAKT understands that the minute we enter your premises we proudly represent our organization and yours.
